(57) Abstract:

Internet of Things (IoT) has a large role to play in future of smart cities which in turn are supposed to be environment friendly. IoT can be used in practically all scenarios for public services by governments to make cities environment friendly. IOT Sensor-enabled devices can help monitor the environmental impact on cities, collect details about sewers, air quality, and garbage. Such devices can also help monitor woods, rivers, lakes, and oceans. Many environmental trends are so complex, that they are difficult to conceptualize. IoT is an eco-friendly technology which benefits not only the environment but mankind as whole. Deforestation is an issue that is impacting not only India but the global environment. In this work, we focused tree cutting detection, fire detection, human detection and contaminated water detection using vibration sensor (ADXL 335 Accelerometer), fire sensor (5-Channel Flame Sensor Module), Passive Infrared Sensor (PIR) and PH sensor respectively. Arduino Based Deforestation Alert System is used along with GSM to communicate to central server from remote place. The sensed data from sensors is collected and sent to t he authorized person via GSM.

(ii) Declaration by the applicant(s) in the convention country

(In case the applicant in India is different than the applicant in the convention country: the applicant in the convention country may sign herein below or applicant in India may upload the assignment from the applicant in the convention country or enclose the said assignment with this application for patent or send the assignment by post/electronic transmission duly authenticated within the prescribed period)

I/We, the applicant(s) in the convention country declare that the applicant(s) herein is/are my/our assignee or legal representative.

- (a) Date:
- (b) Signature(s)
- (c) Name(s) of the signatory

(iii) Declaration by the applicant(s)

I/We the applicant(s) hereby declare(s) that: -

- o I am/ We are in possession of the above-mentioned invention.
- o The provisional/complete specification relating to the invention is filed with this
- o application.
- o The invention as disclosed in the specification uses the biological material from India and the necessary permission from the competent authority shall be submitted by me/us before the grant of patent to me/us.
- o There is no lawful ground of objection(s) to the grant of the Patent to me/us. I am/we are the true & first inventor(s).
- o I am/we are the assignee or legal representative of true & first inventor(s).
- O The application or each of the applications, particulars of which are given in Paragraph-8, was the first application in convention country/countries in respect of my/our invention(s).
- o I/We claim the priority from the above mentioned application(s) filed in convention country/countries and state that no application for protection in respect of the
- o invention had been made in a convention country before that date by me/us or by any person from which I/We derive the title.
- o My/our application in India is based on international application under Patent Cooperation Treaty (PCT) as mentioned in Paragraph-9.
- o The application is divided out of my /our application particulars of which is given in Paragraph-10 and pray that this application may be treated as deemed to have been filed on under section 16 of the Act.
- o The said invention is an improvement in or modification of the invention particulars of which are given in Paragraph-11.
