

**STEPCONE-2024** 

STANDARD OPERATING PROCEDURE

**EVENT NAME: VISION EXPERT UNVIELD** 

**DEPARTMENT NAME:** CSE & CSE-AIML & AIDS

**EVENT TYPE: WORKSHOP** 

## **EVENT DESCRIPTION:**

You're Cordially Invited to Our VISION EXPERT UNVIELD Workshop! In today's digital era, students with computer vision expertise are in high demand. Join us to acquire hands-on skills in image recognition, object detection, and more. Explore how computer vision is shaping industries like autonomous vehicles and healthcare. Familiarize yourself with key tools like OpenCV and TensorFlow, equipping you for software development roles. Don't miss this opportunity to meet industry demands and delve into the ethical considerations of computer vision. We look forward to seeing you there!

Note: This is an individual event; participants are encouraged to participate independently.

## **EVENT GUIDELINES:**

- Ensure each participant brings a laptop for hands-on activities.
- All registered participants are expected to be present at the venue on time.
- Strict adherence to ethical practices during workshop tasks.
- Participants are required to attend the entire duration of the workshop. (4 hours)
- No changes allowed to the registered participants.

**TEAM SIZE: INDIVIDUAL** 

## **PLAN OF ACTION:**

- Welcome participants to the workshop.
- Provide a brief orientation outlining the event's purpose, rules, and logistical details.
- Commence the workshop with a two-hour instructional session covering the fundamentals
- Facilitate hands-on training during this period, ensuring participants gain practical skills
- Allocate one hour for participants to independently work on tasks related to the workshop topics.
- During this time, encourage participants to apply what they've learned, with instructors and assistants available for guidance.
- Open the floor for questions and discussion.
